

Brainstorm & idea prioritization

This is a textbox...

10 minutes to prepare1 hour to collaborate

2-8 people recommended

Problem statement

During the COVID 19 crisis, the requirement of plasma became a high priority and the donor count has become low. Saving the donor information and helping the needy by notifying the current donors list, would be a helping hand. In regard to the problem faced, an application is to be built which would take the donor details, store them and inform them upon a request.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

① 10 minutes

MATHAN	I RAJ A R	
We can check local data to recommend plasma donors location	We should check the respective users to recommend plasma availability	For purp ca
